Meets Specifications

SHARE YOUR ACCOMPLISHMENT

Amazing job! ★

Congratulations on finishing the iOS Nanodegree Program! I hope you enjoyed your time here with us. I wish all the best in your career as an iOS Developer.

Best wishes from Brazil!

README file

✓ The app contains a README that fully describes the intended user experience. After reading the document, a user can easily use the app.

✓ The README provides all necessary information to enable the reviewer to build, run, and access the app.

User Interface

✓ The app contains multiple pages of interface in a navigation controller or tab controller, *or* a single view controller with a view that shows and hides significant new content.

✓ The user interface includes more than one type of control.

Networking

✓ The app includes data from a networked source.

✓ The networking code is encapsulated in its own classes.

✓ The app clearly indicates network activity, displaying activity indicators and/or progress bars when appropriate.

✓ The app displays an alert view if the network connection fails.

Persistent State

The app has a persistent state that is stored using Core Data or a service with local persistence capabilities (e.g. Firebase or Realm).

App Functionality

The app functions as described in the README, without crashes or other runtime errors.
